-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 6/22/06, Amendment.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment dated 6/22/06. Claims 1-10 are pending.
2. The rejection of claims 1-10 under 35 USC 102(b) as being anticipated by Lisec (US 5476124, of record), as set forth in paragraph 6 of the previous action, has been withdrawn in light of the present amendment; note the seal 30 pivots about axis 61 in addition to being adjustable solely perpendicular to the plane of the plates while seal 31 is adjustable parallel and perpendicular to the plane of the plates (Figure 5; column 6, lines 26-55).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Lisec (US 4369084).

Lisec teaches the claimed limitations:

- essentially vertical plates 1 and 2
- conveyor means 9 for insulating glass sheet to be filled with heavy gas
- seal 11 in a space between the plates and aligned essentially vertically; note reference teaches three seals 11 - one associated with the top horizontal edge of the plates and the other two associated with the vertical edges of the plates (column 1, lines 28-32), with the seal 11 associated with the top horizontal edge

Art Unit: 1733

of the plates being equated to Applicant's seal (20), which is also associated with the top horizontal edge of the plates as shown in the overhead views provided by Figures 1 and 3 in the present application

- seal 11 associated with the top horizontal edge of the plates being between the plates and being adjustable solely perpendicular to a plane of the plates (column 1, line 64 – column 2, line 10)
- sealing elements 11 on two vertical edges of the plates for sealing a space between the plates to the outside; as set forth above, reference teaches three seals 11 - one associated with the top horizontal edge of the plates and the other two associated with the vertical edges of the plates (column 1, lines 28-32), with the two sealing elements 11 associated with the vertical edges of the plates being equated to Applicant's sealing elements (12), which are also associated with the vertical edges of the plates as shown in the overhead views provided by Figures 1 and 3 of the present application

*Unlike the present application, the Lisec reference does not provide an overhead view of the device and only provides a side view of the device, which is similar to the side view of the present application's device shown in Figure 2. Therefore, the Lisec reference is unable to depict all three of the seals 11; however, one of ordinary skill in the art reading Lisec would clearly understand that the three seals 11 read on Applicant's claimed seal (20) and sealing elements (12).

Response to Arguments

5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Jessica L. Rossi** whose telephone number is **571-272-1223**. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.
